MANAGER'S REPORT

OFFICE OF THE TOWN MANAGER

March 1, 1964

Board of Selectmen and
Citizens of Newport
Newport, New Hampshire

Gentlemen:

It is my privilege to present to you the annual report for the Town of Newport accompanied by the annual school report of the Newport School system.

During 1963, for the third consecutive year, the Town operations were conducted within budgetary limitations. A small surplus of approximately \$6,800.00 is being returned to the general account.

During 1963 it became apparent that additional emphasis would be required in our water and sewer departments, and the 1964 budget will reflect a request for funds to accomplish this purpose. In other departments our operations were considered to be normal.

Activity continues in the construction of new homes and industrial buildings in Newport. The outstanding structure in this connection is the new Citizens National Bank Building on Main Street.

I wish to take this opportunity to thank the Board of Selectmen, as well as other individuals and committees, for the support rendered to me during 1963.

Respectfully submitted,

ALVIN A. HEIDNER

Town Manager

TOWN WARRANT

STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Newport, qualified to vote on Town Affairs:

You are hereby notified and warned to meet at the Town Hall in said Town of Newport on the second Tuesday of March next at nine o'clock in the forenoon to act upon the following subjects:

ARTICLE 1. To elect a Selectman for a term of three years; to elect a Town Treasurer and a Town Clerk for the ensuing year.

ARTICLE 2. To elect delegates to the 1964 Constitutional Convention.

ARTICLE 3. To vote on the question "Shall sweepstake tickets be sold in this town?"

ARTICLE 4. To elect a member of the Trust Fund Commission for three years and all other officers, Auditors, Agents and Committees necessary for the Town Business.

ARTICLE 5. To see if the Town will vote to elect a Trustee to the Board of Trustees of Richard's Free Library for a term of three years.

ARTICLE 6. To see if the Town will vote to authorize the Selectmen to employ State Auditors to inspect and audit the books of the Town and its departments for the ensuing year and to pass any vote in relation thereto.

ARTICLE 7. To hear the reports of Selectmen, Town Treasurer, Auditors and Committees heretofore chosen and pass any vote in relation thereto.

ARTICLE 8. To see if the Town will vote to authorize the Selectmen and Town Treasurer to borrow money on the notes of the Town in anticipation of taxes and pass any vote in relation thereto.

ARTICLE 9. To see what discount the Town will vote to allow on 1964 taxes if paid within ten days of the posting of the Tax Invoice.

ARTICLE 10. To see if the Town will vote to authorize the Selectmen to administer or dispose of any real estate acquired by the Town through Tax Collector's deeds or in any other manner.

ARTICLE 11. To see if the Town will vote to appropriate the following Budget amounting to \$110,398.00 to be allocated as follows:

Town Officers' Salaries	\$ 12,725.00
-------------------------	--------------

Town Officers' Expenses	14,355.00
Town Hall	9,950.00
Town Dump — Garbage Removal	4,689.00
Public Welfare	26,100.00
Patriotic Purposes	1,000.00
Police Department	33,879.00
Insurance	6,750.00
New Hampshire Retirement	950.00

ARTICLE 12. To see if the Town will vote to raise and appropriate the following Budget amounting to \$233,514.25 to be allocated as follows:

Fire Department	\$ 19,696.00
Care of Trees	1,700.00
Highway Department	78,648.00
Recreation	3,850.00
Water Department	21,343.00
Cemeteries	8,950.00
Damages & Legal Expenses	600.00
County Tax	41,065.00
Christmas Lighting	300.00
Social Security	4,100.00
Advertising & Regional Associations	1,272.00
Street Lighting	12,500.00
Interest on Debt	3,805.25
Town Debt	21,500.00
Sewer Maintenance	6,750.00
Public Health Nurse	3,300.00
Election & Registration	1,335.00
Municipal Court	1,800.00
Civil Defense	1,000.00

ARTICLE 13. To see if the Town will vote to adopt the provisions of the Municipal Budget Law and authorize the moderator to appoint a budget committee of nine members-at-large.

ARTICLE 14. To see if the Town will vote to purchase a backhoe for the Highway, Water and Sewer Departments and for such purpose to appropriate a sum not exceeding \$12,000.00, such sum to be raised through the issuance of serial notes under and in accordance with the provisions of Chapter 33 of the Revised Laws, as amended, and to authorize the Selectmen to determine the time and place of payment and rate of interest on said notes and to take such action as may be necessary to the issuance thereof.

ARTICLE 15. To see if the Town will vote to replace certain water service lines and hydrants running under the Main Street between the Newport Common and the Sugar River Bridge as a preliminary to paving said area and for such purpose to raise and appropriate the

sum of \$7,000.00, such sum to be raised through the issuance of serial notes under and in accordance with the provisions of Chapter 33 of the Revised Laws, as amended, and to authorize the Selectmen to determine the time and place of payment and rate of interest on said notes and to take such action as may be necessary to the issuance thereof.

ARTICLE 16. To see if the Town will vote to authorize the Selectmen to file in behalf of the Town an application (in form and manner required by the United States, and in conformity with P.L. 560, 83rd Congress as amended by P.L. 345, 84th Congress) and do whatever else may be required to obtain an advance, in the amount of \$67,000.00, to be made by the United States to the Town of Newport to aid in defraying the cost of final plans and specifications for sewage disposal facilities for the Town of Newport.

ARTICLE 17. To see if the Town will vote to authorize the Selectmen to enter into negotiations for the purchase of such land as the Board may deem necessary to build sewage disposal sites and to report their negotiations and recommendations to the 1965 Annual Town Meeting, including the authority to insert their recommendations, if any, in the 1965 Annual Town Warrant.

ARTICLE 18. To see if the Town will vote to authorize the Selectmen to file on behalf of the Town an application (in form and manner required by the United States, and in conformity with P.L. 560, 83rd Congress as amended by P.L. 345, 84th Congress) and do whatever else may be required to obtain an advance, in the amount of \$12,000.00, to be made by the United States to the Town of Newport to aid in defraying cost of engineering investigation, test well exploration, report and preliminary plans for water supply and distribution facilities for the Town of Newport.

ARTICLE 19. To see if the Town will vote to accept a testamentary bequest from the Estate of Ethel Mary Young, late of Wellesley, Massachusetts, bequeathing to the Town certain household furniture, dishes, glassware and antiques, provided that the Town keeps them in . . . "some house or Town building" as a memorial to Justina Lowell Young.

ARTICLE 20. To see if the Town will vote to raise and appropriate the sum of \$20,000.00 to be used by the Newport Hospital and pass any vote in relation thereto.

ARTICLE 21. To see if the Town will vote to raise and appropriate the sum of \$13,000.00 to be used by the Richard's Free Library and pass any vote in relation thereto.

ARTICLE 22. To see if the Town will vote to adopt the provisions of Chapter 252 of the Revised Statutes Annotated (as amended)

relating to Sidewalks and Sewers which law, among other things, authorizes the Board of Selectmen to establish sewer rentals to defray the cost of construction, operation and maintenance thereof and pass any vote in relation thereto.

ARTICLE 23. To see if the Town will vote to extend the existing Town sewer line from the westerly side on North Main Street to the corner of Sandy Lane and Cheney Street and to raise and appropriate the sum of \$8,000.00 for said purpose.

ARTICLE 24. To see if the Town will vote to extend its water system from a point at the main on Unity Road easterly along Lorraine Street approximately nine hundred (900) feet to Dolores Street; and on Dolores Street approximately six hundred (600) feet southerly from the end of the existing main; and on William Street, so-called, a proposed public highway, easterly from the main on Unity Road approximately nine hundred (900) feet to Dolores Street, and to raise and appropriate the sum of \$6,000.00 for said purpose.

ARTICLE 25. To see if the Town will vote to raise and appropriate the sum of \$10,000.00 for the purpose of digging, laying and constructing an artesian well in North Newport, on land to be purchased by the Town and to dig and lay a water main from said artesian well to the end of the existing water line.

ARTICLE 26. To see if the Town will vote to authorize the Board of Selectmen to appoint a committee to investigate the purchase of a certain parcel of land in Unity adjacent to land owned by the Town of Newport at Gilman Pond known as the Walker tract, and said committee to report their findings and recommendations to the Town at the next annual Town Meeting.

ARTICLE 27. To see if the Town will accept proper documents from United Construction Corporation which convey and transfer all its right, title and interest in and to the water system as it now exists on land of the Corporation on the Easterly side of Route 10 leading to Croydon formerly the Cummings creamery and farm property, and operate and maintain the system.

ARTICLE 28. To see if the Town will vote to purchase three (3) fire hydrants and appropriate gate valves and install one at or near 280 Sunapee Street and the other two at other points easterly of the first hydrant and to raise and appropriate the sum of \$2,000.00 for said purpose.

ARTICLE 29. To see if the Town will vote to establish a recreation committee consisting of five members to be appointed by the moderator, said committee study recreation needs of the community and

report its finding and make recommendations to the Town at the 1965 Annual Town Meeting and to see if the Town will vote to raise and appropriate a sum of \$200.00 to be used by the committee in its study.

ARTICLE 30. To transact any other business which may legally come before said meeting.

(Polls shall be open for the reception of ballots at 9:30 A.M. and shall not be closed earlier than 7:00 P.M.)

Given under our hands and seal at Newport, New Hampshire, this 21st day of February 1964.

Selectmen of Newport, N. H.

POLICE DEPARTMENT

During 1963, we again were very unfortunate in losing one of our Police Officers, Deputy Chief Arthur Lake. We are indeed sorry that Lake requested retirement as a result of physical injuries sustained in the line of duty. His loss in the department is very greatly felt.

With Arthur Lake's loss, the force was reduced to three officers, and it was necessary to recruit three new members to bring us up to our authorized strength of six. This action has now been accomplished, and the department is functioning well at this time.

Most of the operations were considered to be normal and some of the 1963 statistics are listed below:

Complaints received	1,276
Traffic accidents investigated	153
Persons injured in traffic accidents	20
Doors and windows found unlocked and secured	308
Persons accepted for night lodging	23
Street lights found out and reported	90
Lost property recovered & returned to owners	\$ 173.73
Stolen property recovered & returned to owners	\$10,726.98
Prisoners taken to House of Correction in Unity	11
Emergency messages delivered	42
Blood relays	1
Bank escorts	336
Persons taken to hospital in cruiser	12
Persons taken to St. Hospital in Concord	1
Persons held for other departments	26
Bicycles registered	193
Juveniles investigated	44
Juveniles prosecuted	18
Miles traveled in cruiser	38,939
Accident deaths	5

FIRE DEPARTMENT

1963 was another good year for the Town of Newport with respect to losses sustained as a result of fire. Although the Fire Department answered a total of 130 calls in 1963 as against 96 the previous year, the losses were considered quite low. The principal causes of fire continued to be chimney fires, oil burners and grass fires. It might be mentioned here that eight of the calls were out of town and that Newport is reimbursed for the cost of these calls.

We continue to have an exceptionally interested and conscientious group of men who make up our Fire Department. Let us hope that their interest will continue, as the services which they perform cannot be calculated in dollars and cents at any time.

WATER AND SEWER DEPARTMENT

1963 was a year in which many of the currently existing deficiencies in our water and sewer departments were definitely brought to light. As mentioned in our 1962 report, we were having difficulty with the chlorinating equipment in our chlorinator house located in Unity. This equipment finally became unserviceable in 1963 and a complete new chlorinating unit was installed. This unit has been functioning efficiently ever since.

One further difficulty which was experienced in our water department was with the pressure control valve which is located in our gate house on Unity Road. The old valve which had been in service for many years finally refused to function properly, and it became necessary to replace this item of equipment. This was done in the fall of 1963 and has been functioning satisfactorily ever since. By means of this installation, it is now possible to control the water pressures in Town, so as to avoid excessive pressure building up and possible leaks in our water mains. Furthermore, this installation has made it possible for the Town to control the water in the East Mountain Reservoir, so as to eliminate the wastage of water which was apparent during the early part of 1963.

The two above installations have taken care of our immediate repair needs, and it will now be necessary for us to establish a long-range program for further improvements on our overall water system, so as to provide for the efficient and continued expansion and use of this service.

All hydrants were flushed during the summer of 1963 and it is hoped that this practice can be continued according to plan.

Sewer problems developed during 1963, which very definitely indicated the need of added emphasis on maintenance and operation of our overall sewage system. A new seweroder was purchased and is now in operation. A program of preventive maintenance is being established, which should help to control the sewer problems which have occurred all too frequently in the past.

The purchase of a new chlorinator, a new pressure reducing valve and the new seweroder were all paid for out of appropriated funds which were available in 1963.

The following is a list of some of the services performed in 1963:

15 water services to new homes

22 house services replaced

7 leaks water mains repaired

Repaired hydrants as necessary after flushing

Started program of brush cutting at Gilman Pond
 Cleaned and inspected gate house Gilman Pond
 4 new sewer connections
 Unplugged over 20 sewage stoppages

In addition to the above, normal maintenance was performed on all equipment at the gate house at Gilman Pond, gate house on Unity Road and gate house located at East Mountain Reservoir.

CEMETERY DEPARTMENT

Continuing emphasis was given to the overall improvement of all of our cemeteries. These efforts consisted primarily of a better grass mowing program and a continuation of our efforts to take care of the buildings, fences and other items of a permanent nature.

The Maple Street Cemetery received a great deal of attention in straightening up old stones, so as to improve the overall appearance of that cemetery.

The burials in our cemeteries for 1963 were as follows:

50 Pine Grove
 28 St. Patrick's
 16 North Newport
 3 Maple Street

HIGHWAY DEPARTMENT

During 1963 matching funds from the State were used to resurface South Main Street from Elm Street to the compact line. The results have been very gratifying. Additional matching funds were used to resurface the following Streets:

Cheney Street
 Summer Street to St. Patrick's Cemetery
 Winter Street
 Beech Street from Sunapee Street to Winter Street
 Cheney Street from Sunapee Street to Grove Street

Current plans call for additional streets to receive similar treatment in 1964.

In addition to the resurfacing mentioned above, the normal program of calcium chloride treatment of certain outlying graveled roads has

been continued. It is planned that this program will be carried on in 1964. It has proven very effective as a means of binding these roads and also the elimination of dust nuisance.

Cold patch mixed by our highway department was used to improve some of the bad areas on the following Streets.

- Pine Street
- Pollards Mills
- Page Hill
- Chandlers Mill
- Summit Road
- Pinnacle Road
- Paradise Road
- Beech Street

Drainage conditions were corrected by the installation of drainage pipes in the following areas:

- Rowe's Flat
- Winter Street
- Town Shed area
- Prospect Street
- Hatch Avenue

Portions of the following sidewalks received a coating of hot top:

- Belknap Avenue
- Court Street
- Winter Street
- Laurel Street
- Maple Street
- School Street
- Pleasant Street

Since the purchase of our new front end loader in 1963, we have used this piece of equipment in a great many areas and in a great many different ways. It has been invaluable to the department and its usage will apparently continue to increase. It is difficult to imagine how we ever got along without it. Some of the primary uses to which this piece of equipment was put is straightening out and widening roads such as Cutts Road, Turkey Hill Road, Prospect Street, Reeds Mill Road Edgell Road and many other small jobs.

Some replanking was necessary on some of our smaller bridges, and this was taken care of as part of our normal maintenance program.

In general, the highway department operations were considered to be highly satisfactory, and too much credit cannot be given to the loyal employees of that department.

PUBLIC HEALTH NURSE

Our Public Health Nurse, Mrs. Margaret Grantham, has submitted the following report reference her activities for 1963:

"Nursing services during the past year have been varied and demanding. Home calls which include the administration of medicines, baths, counseling, and general bedside nursing have accounted for 860 visits. These patients range in age from infants to our oldest citizens.

My duties again this year have included much social work, requiring close cooperation with state and county welfare offices, cancer society, heart fund, aid to the blind, and other charitable organizations.

Clinics have been held in order to afford all town citizens ample opportunity to be immunized against polio, whooping cough, diphtheria and tetanus.

The consolidation of Christmas baskets and their delivery are also a part of my work. I wish to express my appreciation for the generous help of all individuals and organizations who helped make Christmas brighter for so many deserving persons."

The services which are rendered by our Town Nurse are many and varied as mentioned above. In addition to the items which she has mentioned, there are many many small individual services which she performs at all times. The Town of Newport is extremely fortunate in having the services of a person so well qualified for this particular assignment.

NEWPORT HOSPITAL REPORT

Patient statistics for this year were as follows: Patient days—7082, admissions—994, births—109, operations—896, X-ray exams—2468, lab exams—12,303, out-patients treated—3,974. Of the above, all showed a decrease over last year with the exceptions of out-patients treated which increased 295 and X-ray exams an increase of 344.

Purchases by the Hospital Aid consisted of an Obstetrical table, Cardioscope, Defibrillator and Linens.

The outside trim of the hospital received a fresh coat of paint during the fall.

This report would not be complete without mentioning how saddened we all were over the sudden death of Dr. Robert Phillips. This was a great loss to the community and to the hospital.

Respectfully submitted,

RUTH NASON

LIBRARY REPORT

1963 was the most exciting and busiest year in the history of Newport's library. January marked the last month in the old Richards Free Library building. The doors of the new Richards Library were opened on March 6, 1963. With the proceeds from the sale of the old library property, the house at 58 North Main St., gift of Mrs. D. S. Rollins, has been remodelled, redecorated, completely supplied with new and up-to-date library furniture and equipment—transformed into a modern, functional library considered by many to be one of the most beautiful in the state. In its new quarters, the library has had more use by townspeople than in any previous year in its history.

Borrowers cooperated in the move by withdrawing more than 5000 titles from the old building in January and returning them to the new building after its opening. This maneuver served a double purpose—it furnished reading material for the four weeks during which the library had to be closed, and it accomplished the transfer to new quarters of considerably more than a third of the collection. In one and a half school days of shuttling between the shelves of the old building and the new, students from the Newport Junior High School moved the rest of the books and periodicals. Newport-Lake Sunapee Jaycees packed and moved furniture and equipment. Contents of the old museum were thoroughly reviewed to retain all worthy items and return to donors or sell for the benefit of the library any thing extraneous; the packing, moving, and storing of this material was accomplished by the Newport Rotary Club. Boy Scouts donated a day's time and labor at the new building. A volunteer group of women spent two days sorting and arranging unbound magazines in the periodical room. The telephone operators made a generous gift toward a new catalog, and installed a colorful new telephone as well.

The library was already in full swing by April 21, 1963, when, at the beginning of National Library Week, the new building was officially dedicated and presentation was made to the library of the \$1,000 Dorothy Canfield Fisher Memorial Award for New Hampshire for 1963.

Partly as a result of this award, 947 books were added to the library in 1963, almost twice as many as in the previous year. There were also welcome gifts of money for books, and books, recordings, and microfilms from various individuals and organizations, too numerous to be detailed here.

Stimulated by interest in the new building and by its increased collection, use of the library soared—use by adults and use by students, college as well as public school. In 1962, daily circulation averaged 94.6. In 1963, it rose to 123.8, an increase of 30%.

This increased use meant an increased load for the staff, with

nearly twice as many staff hours required for ordering, cataloging, and processing, and almost a third more for keeping circulation records, shelving and repairing books, etc. This is not to mention the time required to handle reference questions, of which there were 812 in 1963.

The Richards Library is used, it is busy, it is fulfilling an increasingly important place in the life of the community, and it is a library building to which the town can point with pride.

Respectfully submitted,

THE LIBRARIAN AND
THE TRUSTEES

CIVIL DEFENSE REPORT

Civil Defense activities for the past year are included in the following paragraphs.

The shelter for the headquarters in the basement of the Town Hall has been completed and the equipment is being installed. This work has been done by the members of the Civil Defense Auxiliary Police with the exception of the electrical work which had to be done professionally. The operations center will be fully operable in April.

Since last year there has been a Police course for all officers and complete training in the use of firearms. Officers have been used by the local Police on several occasions.

A jeep secured by Civil Defense has been very valuable to the Fire Dept. in many instances. This vehicle is also used by the Highway Dept. in the winter. Two other vehicles are being readied for work of specific nature, one being an ambulance which will be used for emergencies only or during any disaster which calls for more than the town professional ambulances can handle.

Personnel has been meeting during the year for various training classes and one new unit has been added for courier service. The Races communications unit is considered one of the best in the State. The Range of East Mountain is available for shooting in the proper manner. Surplus equipment has been secured and stored in the basement of the Town Hall for use in an emergency. Other equipment is being used regularly by different departments of the Town.

Cooperation with the Town officials has been excellent. If Public apathy could be overcome and more volunteers were available, much more could be accomplished. Civil Defense is insurance and, just like any insurance, we hope we never have to use it. The fact must not be overlooked that the Civil Defense plan also is phased to natural and

man made disasters as well as war. The people who have worked so hard in the local Civil Defense organization are to be commended for their efforts.

LOUIS WILLET

Director

WILLIAM KRAJESKI

Assistant

PLANNING BOARD

"The U.S. Census of 1960 indicated that 27.5% of all housing units (in Newport) are deteriorating and 11.2% are dilapidated."

"A Town's desirability as a place of residence and location for business and industry is a result of . . . the social attitudes of the residents, the attractiveness of the natural environment, the quality of local government, and the municipal facilities available for public use."

"The Town of Newport will need major additions and alterations to its physical plant during the years ahead."

These three quotes are from three separate Newport Planning Board studies. They indicate some problems that, to greater or lesser degree, face every municipality in the state. In order to "intelligently cooperate with the inevitable," the Town, three years ago at Town Meeting, re-formed its 12-year-old planning board.

The experience of solvent, progressive, growing communities throughout the nation shows that several tools are very useful in keeping a town attractive to new industry and maintaining orderly growth without waste of taxpayers' dollars. These tools traditionally include a planning board, a zoning ordinance designed to fit local desires, a building code to meet local needs, and subdivision controls that allow the community to grow as its residents want it to, rather than in a costly, sometimes wasteful, patchwork of hopes and desires by subdividers.

More than 90% of New Hampshire's municipalities have planning boards; Newport is one of these. More than 50% have zoning ordinances; Newport does not. Almost 50% have building codes; Newport does not. About 28% have subdivision controls; Newport does not. About 14% of the state's municipalities use all four of these tools to promote orderly growth, and a list of these towns includes some of the fastest growing and most attractive communities in the state.

To date the Newport Planning Board has studied the community to determine what it has and what it needs today, and is comparing these to what it will need in the year 1980, hoping that intelligent, purposeful planning and implementation of plans will leave the town with fewer needs in the years to come than it has today. In other words, the

planning board hopes that the community can leave its present-day teenagers, and its new residents an enriched inheritance.

Further studies concern policies about land development, the town's economic base, the central business district, capital improvement and community facilities. A zoning ordinance is almost ready to be presented to the public for its decision. Subdivision controls are being discussed.

The major studies of the board have been completed in the last year; it is hoped that by the end of this year they will be in sufficient state of completion so that a complete and comprehensive report can be made to the Town.

DIVISION OF MUNICIPAL ACCOUNTING
STATE TAX COMMISSION
Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

February 26, 1964

Board of Selectmen
 Newport, New Hampshire

Gentlemen:

Submitted herewith is the report of an examination and audit of the accounts of the Town of Newport for the fiscal year ended December 31, 1963, which was made by this Division in accordance with the vote of the Town. Exhibits as hereafter listed are included as part of the report.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Water and Sewer Departments, Trustees of Trust Funds and Municipal Court.

FINANCIAL STATEMENTS

Comparative Balance Sheets—December 31, 1962—December 31, 1963:

(Exhibit A-1)

Comparative Balance Sheets as of December 31, 1962 and December 31, 1963, are presented in Exhibit A-1. As indicated therein, the Net Debt increased by \$8,610.99 in 1963.

Analysis of Change in Financial Condition: (Exhibit A-2)

An analysis of the change in financial condition during the year is made in Exhibit A-2, with the factors which caused the change indicated therein. These were as follows:

Increase in Net Debt	
Notes Issued	\$29,000.00
Surplus Used to Reduce Tax Rate	10,000.00
	<hr/>
	\$39,000.00
Decrease in Net Debt	
Long Term Notes Paid	\$ 5,500.00
Bonds Paid	18,000.00
Cash in Hands of Town Clerk	3.00
Net Budget Surplus	6,886.01
	<hr/>
	\$30,389.01
	<hr/>
Net Increase	\$ 8,610.99

Comparative Statements of Appropriations and Expenditures—Estimated and Actual Revenues: (Exhibits A-3 & A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1963, are presented in Exhibits A-3 and A-4. As indicated by the budget summary (Exhibit A-4), a net unexpended balance of appropriations of \$6,362.06, plus a revenue surplus of \$523.95, resulted in a net budget surplus of \$6,886.01.

Summary Statement of Receipts and Expenditures: (Exhibit B-1)

A summary statement of receipts and expenditures for the fiscal year ended December 31, 1963, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1963, is indicated in Exhibit B-2.

Statement of Long Term Indebtedness: (Exhibit H)

A statement of outstanding long term indebtedness as of December 31, 1963, showing annual debt service requirements, is contained in Exhibit H.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible and totals of receipts and expenditures verified. Book balances were verified by comparison with reconciled bank balances made from statements obtained from depository banks. Verification of uncollected taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. Accounts receivable of the Water and Sewer Departments were also verified by sending notices to persons whose names appeared on the delinquent lists. The amounts of uncollected and unredeemed taxes and Water and Sewer Department accounts receivable, as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

GENERAL COMMENTS

Current Surplus:

The current surplus (excess of total assets over current liabilities) decreased by \$3,110.99, from \$35,205.78 to \$32,094.79, in 1963, as shown herewith:

	Dec. 31, 1962	Dec. 31, 1963
Total Assets	\$256,485.67	\$284,921.48
Current Liabilities	221,279.89	252,826.69
Current Surplus	\$ 35,205.78	\$ 32,094.79

Uncollected and Unredeemed Taxes — Prior Years:

It is again noted that there are substantial amounts of uncollected and unredeemed taxes on account of the levies of 1960 and prior years. These are as follows:

	Uncollected Taxes			Unredeemed	
	Property	Poll	Yield	Head	Taxes
Levy of 1960	\$1,054.40	\$74.00	\$ 369.97	\$230.00	\$2,531.24
Levy of 1959	367.53				931.87
Levy of 1958			119.80	85.00	902.73
Levy of 1957			112.63		156.35
Levy of 1956			414.25		53.41
Levy of 1955			203.79		25.70
Levy of 1954			596.26		
& Prior Years					

Totals	\$1,421.93	\$74.00	\$1,816.70	\$315.00	\$4,601.30
--------	------------	---------	------------	----------	------------

It is recommended that the Selectmen and Tax Collector go over these uncollected lists on the tax warrants of 1960 and prior years and such taxes thereon as appear to be uncollectable should be abated by the Board of Selectmen.

The two year period provided for redemption from tax sales has expired in the case of all unredeemed taxes from tax sales on account of the levies of 1960 and prior years. The Tax Collector should therefore give tax deeds to the Town for the properties represented by these tax liens.

Surety Bonds of Treasurer and Town Clerk:

The surety bonds of the Treasurer and Town Clerk should be increased in order that the amount of the bonds may be more proportional to the amount of funds received and in the custody of these officials.

Treasurer's Bond — Increases from \$15,000.00 to \$20,000.00

Town Clerk's Bond — Increased from \$5,000.00 to \$8,000.00

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Newport for their assistance during the course of the audit.

Yours very truly,

HAROLD G. FOWLER

Director

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Newport:

School enrollment had advanced to an all-time high of 1,382 as of January 1, 1964. Present estimates indicate more than 1,400 students will be enrolled next year.

AREAS OF INTEREST

Some of the significant features of this school year include:

1. Re-instatement of Driver Training in the curriculum. (Approximately 100 students will complete the course.)
2. Installation of a 30-Station Language Laboratory at Junior High School. (Cost of this project came from matching funds — 50% local and 50% Federal — N.D.E.A. Title III.)
3. Establishment of an elective course in Art for secondary students.
4. Addition of a course in sheet metal—primarily for sophomore boys.
5. Re-instatement of skiing as an inter-scholastic sport.

Instructor Jean Gelinas operates the console that controls each of the 30 student stations in the new Language Laboratory at the Junior High School.

6. Continuation of the build-up of our school libraries. (A staff member at both the Junior High and at Towle have taken courses in Library Science and have been given reduced teaching loads in order to provide definite time for library work.)

7. Continuation of the outstanding job of the volunteer mothers who "manage and man" the Richards School Elementary Library.

8. Establishment of a Summer School Program on a voluntary basis for certain elementary grade children.

9. Increase in the amount of "foundation aid" from the State of New Hampshire from \$97,436.91 to \$116,545.78. (This **increase** of \$19,109.00 was used to **reduce** the tax rate—not to provide additional school services.)

10. Reduction of the teacher turn-over to a normal rate. (With ten changes—eight replacements and two additional positions—five of the new staff members had prior teaching experience.)

SCHOOL NEEDS STUDY

Although we can point to several areas of improvement, the inadequacies of some of the physical facilities demand that we not remain complacent, static, or silent. Prime needs include up-to-date science facilities at the senior high level, additional classroom area, and improvement upon some very ancient and inefficient school space now in use.

Since all levels of the school system are involved, an over-all study of school needs should be undertaken. An article in the Warrant calls for a Study Committee to make a report not later than the 1965 Annual Meeting.

Respectfully submitted,
GORDON B. FLINT
Superintendent of Schools

ANNUAL REPORT OF PRINCIPAL

TOWLE HIGH SCHOOL

Newport, N. H.

February 1, 1964

Mr. Gordon B. Flint
Superintendent of Schools
Newport, New Hampshire
Dear Sir:

I hereby submit my tenth annual report of Towle High School.

Inadequate facilities continue as the number-one problem at Towle High School.

In September of 1964, we will receive one hundred and twenty-five sophomores after having graduated only sixty-five seniors in June. This increase of sixty students will raise the total enrollment at Towle to a level above what it was before the ninth grade was moved to the new junoir high school. Thus it becomes very obvious that the lack of rooms and adequate facilities will place definite handicaps on stu-

dents and the staff. Such handicaps will leave Towle's graduates at a disadvantage when they compete with graduates from neighboring schools which have greatly expanded and modernized their offerings and equipment.

For several years, personnel from the State Department of Education have called attention to the extremely inadequate and crowded conditions of our science areas. Biology is being taught in a classroom with only make-shift laboratory equipment. The Chemistry-Physics laboratory has not been enlarged or modernized since it was first built. These conditions exist in spite of the complete changes in subject matter, materials, and emphasis in the sciences.

It is obvious that something must be done very soon if the high school students of Newport are to continue to be adequately prepared to compete in higher education, for jobs, and to be mentally and civically developed to adjust to our increasingly complex society.

Some positive factors need to be mentioned. Driver Education was reintroduced in September. By the end of this year, one hundred or more students will have completed this course. Since the State reimburses Newport at the rate of twenty dollars per pupil, this service will be most reasonable on local tax sources.

As a result of last year's District vote, the Ski Team was reorganized this year. As should be expected, the first year's successes have been limited; however, next year's team should be one of the best in this area.

The staffs of the Junior and Senior High Schools are working jointly on the self-evaluation under the auspices of the New England Association of Colleges and Secondary Schools.

The purposes are two-fold: one, to qualify for continued membership in the New England Association; two, to improve our offerings, facilities, and teaching in Newport.

Problems which definitely affect our students accomplishments arise from too many staff changes and the hiring of beginning teachers in place of experienced ones. In September, three new teachers began duties at Towle. In January, two replacements were made. The progress and continuity of programs for our students are upset by such changes.

The community of Newport should be proud of its support of the Newport Alumni's Scholarship Drive last spring. This financial backing is important from a morale point-of-view; it assures our young people that we wholeheartedly endorse their efforts to make something worthy of their talents and time. In return, I am confident Newport will be a better town because their successes will inspire others to push for a better life.

I thank the School Board, the Superintendent, the Staff, the Students, and the Citizens of Newport for the cooperation which has added another successful year to Towle's history.

Respectfully submitted,
HOWARD R. KIMBALL

Principal

ANNUAL REPORT OF PRINCIPAL

NEWPORT JUNIOR HIGH SCHOOL

Mr. Gordon B. Flint
 Superintendent of Schools
 Newport, New Hampshire
 Dear Sir:

This school year, 1963-64, the Newport Junior High School, along with Towle High School, is undergoing a complete evaluation of all phases of the school curriculum and school plant. This evaluation consists of three major parts; 1-the self-evaluation, 2-the visit by an evaluating committee, 3-the follow-up to correct any major weaknesses

A student driver at the wheel while the Instructor, Stephen Zemianek, sits at the dual controls and a prospective driver observes the operation.

Students at work in the new course in Art.

which were discovered during the evaluation.

The part which we have been greatly concerned with in recent months is the self-evaluation phase. Basic to this self-evaluation is a complete understanding of both the functions of the junior high school and the students during these early adolescent years. It is essential for parents as well as teachers of junior high age students to know the functions of a junior high school, and also to understand the common behavior patterns of children during this important phase of their development.

The major functions of the junior high school briefly stated are:

1. To develop in each student the qualities of good citizenship.
2. To provide a gradual transition from the elementary school to the departmentalized secondary school.
3. To continue and broaden the education in the basic fundamentals.
4. To provide for the varying abilities, interests, needs and talents in order to serve all students.
5. To inspire pupils to discover and explore their specialized interests, aptitudes and abilities.
6. To stimulate and prepare pupils to participate as effectively as possible in learning activities, so that they may reach the maximum development of their personal powers and qualities.
7. To assist pupils to make intelligent decisions concerning their present problems and future plans.
8. To reduce drop-outs.
9. To provide for the exploration of various subject and interest areas.

The majority of students in the junior high school are between the ages of twelve to fifteen. This age period is marked by rapid growth, erratic behavior and intellectual curiosity. Realizing there is much overlapping, the following is a brief summary of the common behavior patterns of the different age groups.

The Twelve-year-old: The twelve year old boy or girl either loves school or dislikes it very much. Twelve begins to puzzle out things for himself. He does not "battle" as much with his parents as he did at eleven. Friendships increase and interests between boys and girls starts to grow. Emotional verbal responses increase. Worries decrease with school being the biggest worry. Twelve is less dependent on the teachers and can be challenged.

The Thirteen-year-old: Thirteen is more thoughtful, quiet, self-contained, extremely sensitive and vulnerable. Sulking is common. Worries still focus on homework and lessons. Thirteen is less humorous than twelve. He is very concerned about his personal appearance. Thirteen confides less in parents. Interest in college grows. Parties are a

little calmer than at twelve. Thirteen wants independence. He feels he has too much homework, but will usually work at it conscientiously. Thirteen believes fairness is highly important in school.

The Fourteen-year-old: Health is excellent but complexion problems increase and worry many Fourteens. Fourteen is less withdrawn, and also quick to anger. School is still the chief factor in worry with world conditions now beginning to cause concern. Fourteen regards their mother as old-fashioned and too restrictive. Fourteen often gets along better with father than mother. Girls are further along in

Students in an Industrial Arts class at work on small engines.

dating than boys. School increases in popularity. Fourteen grows more tolerant of teachers.

The Fifteen-year-old: Fifteen is more self-confident and self-controlled. Fifteen worries about school, health and popularity. There are blow-ups with mother. Fifteen becomes more independent and he might withdraw, argue, become extremely aloof, hostile and secretive. Fifteen's attitude toward school is often extreme, either enthusiastic or hostile and indifferent. Nearly all feel there is too much homework. Fifteen often resists teachers' ideas and argues for his own.

It is our hope that the school evaluation will bring about a better understanding of the junior high school and of the students during their junior high years. It is also our hope that the evaluation will point out any weaknesses in our school which we can correct, so that we can serve the students and the community more effectively.

Respectfully submitted,

JOHN H. SOKUL
Principal

ANNUAL REPORT OF PRINCIPAL

RICHARDS SCHOOL

February 5, 1964

Mr. Gordon B. Flint
Superintendent of Schools
Newport, New Hampshire

Dear Sir:

I am pleased to submit my seventh annual report as Principal of Richards School.

This school year the modern approach to the teaching of mathematics has been introduced in some grades and we hope to extend it to all grades next year.

Educational television in Science, Art and the History of New Hampshire was continued as an aid to teaching. This has proven to be very successful and it is hoped that these programs are continued.

Many new books relating to science, adventure and history have been added to the Richards School Library. All the pupils of Richards School have an opportunity to utilize its facilities.

I want to take this opportunity to thank the mothers who are donating their time in supervising the library.

The cafeteria personnel is to be commended for the outstanding task of planning and serving the meals.

For the sixth consecutive year Richards School has participated in the annual Union-Leader State Spelling Bee.

The fifth Richards Grade Glimpses' Program was, once again, highly successful. Funds realized from this program are being utilized to pay for the purchase of athletic and playground equipment, library books and many other important items needed by the School.

Fire drills are held at least once a month, and twice a month during good weather. Children on the second floor of the old building have used the fire escape during fire drills.

I wish to thank the parents, citizens, faculty members, the nurse, students, custodians and other school personnel who have given me support and cooperation to make this a successful school year.

Respectfully submitted,

ALKIVEADIS JURIS

Principal

REPORT OF GUIDANCE COUNSELLOR

Mr. Gordon B. Flint
 Superintendent of Schools
 Newport, New Hampshire

Dear Sir:

I am pleased to submit my third annual report as guidance counselor for the secondary schools of Newport, New Hampshire.

This counselor had the opportunity to attend the 1963 Summer Guidance Institute at the University of Rhode Island. He received special training in individual counseling of high school students and the related personality theory dealing with counseling.

I strongly feel that with larger classes entering and staying in high school that we must commit ourselves to enlarging our guidance services.

An additional guidance counselor is needed to expand these services. With added services the following areas could be more efficiently covered:

1. **Availability to the Students:** By having full-time guidance counselors at both the junior and senior high schools the services would be available to all students every day.

2. **Vocational counseling and placement:** Twenty to forty per cent of all Towle graduates **do not** go on to formal higher education. These students need the very best services that we can offer to them.

3. **Students who drop out of school:** Every student should be encouraged to maintain satisfactory working standards in school and to complete his high school education.

4. **Local educational research:** A good guidance program stays abreast of the student's needs by conducting continuous follow-up studies. Presently there is too little time for any formal studies.

Leading authorities in education recommend that, for an effective guidance program, there should be no more than 250 to 300 students per counselor. Presently this counselor is involved with over 650 students in two schools. A full-time counselor on an eleven-month basis is needed for each school.

The usual guidance efforts were carried out during this year. These consist of such things as individual and group counseling and appraisal through testings. Such efforts provide assistance to our students so that they may adjust to the school program and obtain their short as well as their long term goals.

In conclusion I wish to thank the principals, teachers, school nurse and the townspeople for their cooperation during the past year.

Respectfully submitted,

LELAND D. CHURCHILL

Guidance Counselor

REPORT OF TEACHER CONSULTANT

A PLANNED PROGRAM of testing in general ability and achievement continues to be an important aspect of the elementary schools. This program includes (1) a pre-school readiness testing program for entering first grade children; (2) general ability testing at intervals of grades 1, 4, 6, and 8; (3) general achievement testing at all elementary levels; and (4) individual testing for the gathering of more information when requested by teachers, principals, and parents. The real significance of the program, however, lies in the uses of these test results which include:

1. An attempt to note significant pupil performances on a series of tests given during the year. This is particularly true for first grade youngsters as their test results are graphed on a common scale of measurement, thus assisting teachers in the evaluation of their grouping practices.
2. A provision for noting pupil growth from grade to grade in the major areas of reading, language usage, spelling, arithmetic, and study skills.
3. A provision for analyzing pupil responses to note those items in need of further teaching or re-teaching. This is perhaps the most important classroom use of these results.
4. A program of referral to other agencies when these results indicate the need for further diagnosis and follow-up.

MATHEMATICS continues to receive major attention in the curriculum. Following a series of steps aimed at helping teachers to become better acquainted with the newer approaches in this field, including a series of in-service training films used during this year, our program will be extended throughout all elementary grades. This should provide for more effective continuity.

EDUCATIONAL TELEVISION is used as another aid to teaching, particularly in the field of natural sciences for grade 5, physical sciences for grade 6, science as related to "land and sea" in grade 3, the study of New Hampshire in grade 4, and art in grade 5.

A SUMMER SCHOOL PROGRAM for elementary grade children in this supervisory union was initiated on a voluntary basis during the past summer. The READING program of twenty 60-minute lessons for nearly seventy youngsters from grades 1 to 6 was aimed at giving some attention to various reading skills, providing extra practice and encouragement in small class settings over a four-week period. The TYPING program of twenty lessons for 35 pupils in grades 6-9 was sufficient for pupils at this level to gain a working knowledge of the typewriter keyboard and to develop a proficiency according to the amount of practice each youngster was willing to devote to it. It is hoped that in the future, the summer school program can include classes in mathematics.

A SCHOOL COUNSELING SERVICE co-sponsored by the Newport Parent-Teachers-Friends Club and the Newport Mental Health Association, although only in its earliest stages, gives much promise of a successful approach to the solution of some learning problems — particu-

larly those stemming from emotional disturbances. Dr. C. N. Allen, Psychologist from Hanover, N. H. has been employed for this service on a once-a-month basis. Financial support for this program will come from the sponsoring organizations and by appeal to other interested social and service organizations of the community.

ADULT EDUCATION continues to be a successful and desirable aspect of the total educational picture. Operating on a self-supporting basis under the Newport Adult Education Program, many courses have been offered throughout the years. This year's offerings included two courses in oil painting, one class in bookkeeping, and one in wood-working.

A READING WORKSHOP FOR TEACHERS was offered during the summer through the extension service of Keene State College. This three-week session provided teachers with a review of new materials and techniques in the teaching of reading in the elementary school.

SAFETY EDUCATION through materials from the Child Safety Council continues with emphasis on accident prevention, particularly as a responsibility of the home. Through the cooperation of local law enforcement officers, Child Safety Manuals and other related materials are distributed to youngsters at appropriate grade levels primarily for home use in developing a safety-conscious community. These materials are made available largely through contributions from many local professional and business establishments.

I wish to express grateful acknowledgement of the continued support, encouragement, and guidance of many people within the school system and throughout the community in the sharing of these varied services and responsibilities.

Respectfully submitted,
ALPHONSE J. SOUCY

Teacher Consultant

REPORT OF SCHOOL NURSE

September 1962 - June 1964

Mr. Gordon B. Flint
Superintendent of Schools
Newport, N. H.

Dear Mr. Flint:

I hereby submit my annual report as School Nurse.

Local medical services for physical examinations were given by Drs. Robert Maxfield, Robert Phillips, Denis Maryn, and Luther Weigle.

378 Examinations, including athletic, students in 1st and 7th grades and new pupils.

25 Chest X-rays

4 Vaccinations

Vision and Hearing screening:

1,241 Visions - 48 defects - 18 corrected

390 Hearings - 5 defects - 2 follow-ups

Inspection of 3,668 for various health conditions

1,136 First Aid

- 165 Students taken home ill
- 69 Doctor's office calls with students
- 102 Home visits with conference with parents

Clinics and Referrals:

- 10 Dental Clinics - 17 students treated by Dr. Armen
- 91 Registered at pre-school clinic
- 2,395 Oral Sabin polio

Communicable Diseases:

- | | |
|-----------------|---------------|
| 63 Chicken Pox | 14 Impetigo |
| 1 Mumps | 2 Pediculosis |
| 1 Mononucleosis | |

Sincere thanks to the Newport Fire Department, Lions Club, and Rotary Club for their continued financial support and sponsorship for the various health programs.

My sincere thanks to Mr. Gordon Flint, School Principals, teachers, and personnel, local medical doctors, Dr. Armen, School Dentist, parents, and citizens of Newport for their assistance and cooperation during the past year.

Respectfully submitted,

MARY F. LORD, R. N.

By JUNE F. BUCK, R. N.

School Nurse

Mrs. June Buck, School Nurse, conducts a routine hearing test with the Maico audiometer.

A mother observes her prospective first grader taking a pre-school test.

Mrs. Helen McIntire, a fourth grade teacher, explains some concepts of the "new math."

SCHOOL WARRANT THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Newport, in the County of Sullivan, in the State of New Hampshire, qualified to vote in District affairs:

You are hereby notified to meet at the Town Hall in said District on the seventh day of March 1964 at 1 o'clock in the afternoon to act upon the Articles set forth in this Warrant. Articles 1, 2, 3, 4, and 5 of this Warrant covering the election of Moderator, Clerk, Treasurer, Member of the School Board, and Auditors will be acted upon at 1 o'clock p.m. and voting will be by official ballot and check lists and the polls will remain open for this purpose from 1 o'clock p.m. until at least 3 o'clock p.m. At 2 o'clock p.m. the remaining Articles will be acted upon.

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Treasurer for the ensuing year.

Article 4. To choose a Member of the School Board for the ensuing three years.

Article 5. To choose Auditors for the ensuing year. (Two or more.)

Article 6. To hear the reports of Agents, Auditors, Committees or Officers chosen, and pass any vote relating thereto.

Article 7. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of School District Officials and Agents, and for the payment of statutory obligations of the District, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund, and other state sources, together with other income; the School Board to certify to the Selectmen the balance between the revenue and the appropriation, which balance is to be raised by taxes by the Town.

Article 8. To see if the District will vote to authorize the Moderator to appoint a committee of three to work with him and the School Board on a study of present and future school needs and make a report not later than the next annual meeting of the District.

Article 9. To see if the District will vote to authorize any unencumbered balance accruing June 30, 1964 in excess of \$2,000.00 to be placed in a Capital Reserve Fund to be used toward the purchase of a new school bus.

Article 10. To transact any other business that may legally come before said meeting.

Given under our hands this 14th day of February 1964.
